

This is a native (born-digital) cover page with a real text layer.
It must NOT be treated as scanned.
The following pages are scanned images.

Scanned page 2.

This page evaluates whether the vision fallback recovers readable paragraphs from a rasterized image. The extracted text should preserve reading order and omit running headers and footers that do not belong to the body.

Scanned page 3.

This page evaluates whether the vision fallback recovers readable paragraphs from a rasterized image. The extracted text should preserve reading order and omit running headers and footers that do not belong to the body.
